

## ACquire Installation and Training Roles

3/6/2001

### ***Alltel Representative***

- Directs and assists the hardware and software installation on the mainframe(s) and ACquire server.
- Delivers ACquire Developer training to designated client personnel on:
  - ACquire Theory
  - ACquire virtual printer
  - ACquire configuration.
  - Shrinker configuration and operation.
  - Report "markup" so ACquire recognizes the report.
  - Report field markup.
  - ACquire viewer operation, such as find, search, browse, extract.
  - Extraction to external file formats.

### ***Corporate Knowledge***

- Runs warroom to develop:
  - Application areas required to configure ACquire
  - Knowledge of system architecture
  - Data sources used for reports (may be on different mainframe systems)
  - Current and new reporting standards
  - Report development priority
- Assists the Alltel representative in the Developer training.
- When the Developer training completes, trains and assists the Developers in additional ACquire report development. These reports were developed in the warroom.
- Delivers the additional courses in developing the reporting system beyond ACquire to desktop applications and reporting systems.
